HAP TRADING, LLC
Notes to Financial Statements
12/31/2018

NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS

HAP Trading, LLC (the "Company"), a New York limited liability company is a broker-dealer registered with the Securities and Exchange Commission and is a member of the NYSE Amex Options ("NYSE-AMEX"), the Chicago Board Options Exchange ("CBOE"), the Philadelphia Stock Exchange ("PHLX"), the NYSE-ARCA Exchange, the Nasdaq Exchange and the BATS Exchange.

The Company engages in market making on the NYSE-AMEX, CBOE and PHLX. The company hedges its risk with equities, Exchange Traded Funds ("ETFs") and the related equity options and/or options on the ETFs and/or indices. The Company may also engage in various other proprietary trading strategies.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

All short-term investments with an original maturity of three months or less are considered to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

Effective January 1, 2018, the Company adopted ASC Topic 606, Revenue from Contracts with Customers ("ASC Topic 606"). Purchases and sales of securities are recorded on a trade-date basis. Realized and unrealized gains and losses on investments are included in the determination of securities trading income. The accounting for these revenues is not impacted by ASC 606 as they fall outside of its scope.

Interest income is recorded on the accrual bases and dividends are recorded on the ex-dividend date.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Concentration of Credit Risk

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Depreciation

The cost of computers, furniture and equipment is depreciated over the estimated useful lives of the related assets of 3 to 7 years on a straight line basis. The costs of lease hold improvements are amortized over the life of the operating lease of approximately 11 years on a straight line basis.

Recent Accounting Pronouncements

The Company does not expect any recent accounting pronouncements to have any material impact on its financial condition or results of operations.

NOTE 3 – FAIR VALUE OF INVESTMENTS

Fair Value Measurements

Fair value is an estimate of the exit price, representing the amount that would be received to, sell an asset or paid to transfer a liability in an orderly transaction between market participants (i.e., the exit price at the measurement date). Fair value measurements are not adjusted for transaction cost. Fair value measurement under generally accepted accounting principles provides for use of a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value into three levels:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2: Inputs other than quoted market prices that are observable, either directly or indirectly, and reasonably available. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the Company.

HAP TRADING, LLC
Notes to Financial Statements

NOTE 3 – FAIR VALUE OF INVESTMENTS (continued)

Level 3: Unobservable inputs. Unobservable inputs reflect the assumptions that the Company develops based on available information about what market participants would use in valuing the asset or liability.

An asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Availability of observable inputs can vary and is affected by a variety of factors. The Company uses judgment in determining fair value of assets and liabilities and Level 3 assets and liabilities involve greater judgment than Level 1 and Level 2 assets or liabilities.

The following are the Company's investments owned and securities sold short by level within the fair value hierarchy at December 31, 2018.

	<u>Fair Value</u>	<u>Fair Value Hierarchy</u>
Assets		
Securities owned	\$ 2,275,487,305	Level 1
Liabilities		
Securities sold, not yet purchased	\$ 2,895,680,708	Level 1

NOTE 4 - INCOME TAXES

No provisions for federal and state income taxes are made in the financial statements as these taxes are the responsibility of the Company's members under a limited liability corporation.

NOTE 5 - COMMITMENTS AND CONTINGENCIES

Operating Leases

The Company currently one lease agreement for one office space expiring in 2026. During 2018, the Company paid \$790,790 in rent expense.

NOTE 5 - COMMITMENTS AND CONTINGENCIES (Continued)

In connection with the new FASB standard 842 regarding leases, which takes effect as of the first day of the fiscal year after 12/31/2018, management has evaluated the financial impact the standard will have on the Company's financial statement when adopted. As of January 1, 2019, the company will record a right-of-use asset in the amount of approximately \$3,914,231 and a lease liability in the amount of \$4,426,358. The impact to the Company Net Capital will be \$512,127, as the right-of-use asset will be allowable to the extent of an offsetting lease liability.

NOTE 6 – NET CAPITAL REQUIREMENTS

The Company is a member firm of the Chicago Board Options Exchange, and is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1. Net Capital is defined as at least, the greater of \$1,000,000 or 6 2/3% of aggregate indebtedness, as defined. Net Capital and aggregate indebtedness change daily. The Company had net capital of \$74,917,952 at December 31, 2018 which exceeded \$1,000,000 by \$73,917,952 and exceeded 6 2/3% of aggregate indebtedness by \$74,341,577. The ratio of aggregate indebtedness to net capital was 11.54 to 1 at December 31, 2018.

NOTE 7 – DERIVATIVE FINANCIAL INSTRUMENTS AND OTHER OFF-BALANCE SHEET RISKS

In the normal course of business, the Company trades various derivative financial instruments with off-balance sheet risk. The Company enters into derivative transactions for both trading and economic risk management purposes, resulting from its own business activities. These derivative transactions typically include equity options, options on ETFs and index options, coupled with futures and options on futures for ETFs and indices.

In addition, the Company has sold securities and derivative contracts that it does not currently own, and will therefore be obligated to purchase such securities at a future date. The Company has recorded these obligations in the financial statements at December 31, 2018 at fair value, and will incur a loss if the fair value of the securities and derivative contracts sold and not yet owned increases subsequent to December 31, 2018.

Generally, the Company hedges against the securities and derivative contracts sold and not yet owned, thus a loss in these positions may be offset by income attributable to the hedge.

NOTE 7 – DERIVATIVE FINANCIAL INSTRUMENTS AND OTHER OFF-BALANCE SHEET RISKS (Continued)
